SAILING-STYLE FENCE

The sailing fence is made of high-quality pine wood, which has been impregnated to increase its resistance to moisture, mold, and insects.

The fence elements are connected with a solid jute rope with a diameter of 30 mm, which gives the whole structure a natural and original character.

Each post is equipped with a steel mounting anchor, which should be screwed to the post and then screwed to the ground, ensuring the stability and durability of the structure.

SPLIT HAZEL FENCE

The fence is made of natural hazel wood, available in lengths of 5 m and 3 m, with a spacing between pickets of 4–5 cm or 7–8 cm. The wood comes from local plantations and has not been chemically impregnated or varnished.

The pickets are connected with 1.8–2.0 mm thick galvanized steel wire, which guarantees the strength and stability of the structure even in difficult weather conditions. *lacus vel facilis*.

LOUVRED PANEL FENCE

The fences are made of natural pine wood, available in two colors – dark brown and light brown, and are available in heights of 80, 100, and 120 centimeters.

The length of the fence is 3 meters, and the spacing between the slats is approximately 4-5 centimeters.

The slats, with a diameter of 4 centimeters, are connected with galvanized steel wire with a thickness of 1.8-2 mm.

The wood has been impregnated by immersion to increase its resistance to weather conditions. lacus vel facilisis.

PREMIUM CAT HOUSE

A comfortable cat house made of high-quality wood with insulation. The roof is covered with roofing felt to protect against the weather, and a flexible curtain at the entrance protects against drafts.

The opening roof makes cleaning easy, and the rope scratching post allows cats to sharpen their claws. It works well at home, on the balcony, and in the garden all year round.
